Reviewer's report

Title: Potentially inappropriate prescriptions (PIPs) for older patients in long-term care

Version: 2 Date: 10 August 2004

Reviewer: Michel Bédard

Reviewer's report:

General

I am satisfied with the revisions made by the authors.

--------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

--------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

--------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

-----------------------------------------------------------------------------------------------

What next?: Accept without revision

Level of interest: An article of importance in its field
