Reviewer's report

Title: Risk factors for delirium in acutely admitted elderly patients: a prospective cohort study

Version: 2 Date: 4 March 2005

Reviewer: Sijmen Duursma

Reviewer's report:

General
The authors adapted all remarks given in my previous comments in a correct way.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No

Declaration of competing interests:
I declare that I have no competing interests.
