Reviewer's report

Title: Risk factors for delirium in acutely admitted elderly patients: a prospective cohort study

Version: 2 Date: 11 March 2005

Reviewer: Alastair Macdonald

Reviewer's report:

I am satisfied with the revisions made to the substance of this paper, although some minor subediting (e.g. English) is still needed.

What next?: Accept after minor essential revisions

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: No
