Reviewer's report

Title: Can volunteer companions prevent falls among inpatients? A feasibility study using a pre-post comparative design.

Version: 2 Date: 5 July 2006
Reviewer: Judith Donoghue

Reviewer's report:

General

---------------------------------------------------------------------
Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

---------------------------------------------------------------------
Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Check on page 14, para 3 line 5 the word "support" is used but it does not make sense. I think you meant to write "report".

---------------------------------------------------------------------
Discretionary Revisions (which the author can choose to ignore)

What next?: Accept after minor essential revisions

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No
