Title: Quality of care assessment in Geriatric Evaluation and Management Units: construction of a chart review tool for a tracer condition

Version: 2 Date: 4 June 2009

Reviewer: Manuel Montero-Odasso

Reviewer's report:

The authors have made significant improvements to this manuscript, which have greatly strengthened the overall paper. Since the authors have responded to my queries properly, no extra changes are required. I would suggest to tighten up the conclusion and to remove the aims from this section.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
