Reviewer's report

Title: Thromboelastographic Evaluation of the Effects of Recombinant Factor VIIa on Dilutional Coagulopathy

Version: 2 Date: 21 December 2004

Reviewer: Jørgen Ingerslev

Reviewer's report:

General

---------------------------------------------------------------------------------------------------------------------------------  
Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

---------------------------------------------------------------------------------------------------------------------------------  
Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

The English language should be checked and improved (minor errors only)

---------------------------------------------------------------------------------------------------------------------------------  
Discretionary Revisions (which the author can choose to ignore)

What next?: Accept after minor essential revisions

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No
