Reviewer's report

Title: Nutritional anemia is not a rare problem among women of reproductive ages in Ethiopia: a community based cross sectional study.

Version: 1 Date: 20 May 2009

Reviewer: Emmanuel ANDRES

Reviewer's report:

general comments:
good paper
original study
data well documented, paper well structured

specific comments: not "nutritional" anemia but "iron deficiency" anemia; in fact folate and cobalamin deficiencies, vitamin C deficiency wrer not studied and not available (Andrés Eur J Intern Med 2008 for the definition of nutritional anemia)

recommendation:
minor correction; may be accepted

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
