Reviewer’s report

Title: Syphilis epidemiology in Norway, 1992-2008: resurgence among men who have sex with men

Version: 1 Date: 19 February 2010

Reviewer: Jorge Sanchez

Reviewer’s report:

This paper is excellent written describing the nature of the problem and indicating the context of previous knowledge. The objective stated in the introduction are fully developed in the results and discussion. Strengths and limitation are fully developed.

Minor essential Revision:

Figure 2 does not add much information and HIV coinfection could just be more explain in the text.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
