Reviewer's report

Title: The prevalence of hepatitis B virus markers in a cohort of students in Bangui, Central African Republic

Version: 2 Date: 27 May 2010

Reviewer: Maimuna Mendy

Reviewer's report:

1) The heading of table 4 needs editing suggest replace 'IC95%' with '95% CI'
2) check misuse of words e.g last sentence in the discussion section 'dental car' or 'dental care'; also page 8- 'The essay on 15 samples' or 'The assay on 15 samples'.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
