Reviewer's report

Title: Molecular epidemiology of a hepatitis C virus epidemic in a haemodialysis unit: outbreak investigation and infection outcome.

Version: 4 Date: 1 July 2010

Reviewer: Jean-Claude Desenclos

Reviewer's report:

The authors have considered all comments made by both reviewers, responded to all and taken them into account in a very reasonable way.

The paper is much improved

I have no more comments and believe that the paper can be accepted now

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests
