Reviewer’s report

Title: A phase II, open-label, multicentre study to evaluate the immunogenicity and safety of an adjuvanted pre-pandemic (H5N1) influenza vaccine in healthy Japanese adults

Version: 2 Date: 26 October 2010

Reviewer: Jinxia Zhang

Reviewer’s report:

The authors had provided clear response and answers to my previous comments and questions. New information on the evolution of H5N1 virus and vaccine strains selection had also been added to the Discussion. In my opinion, this manuscript is acceptable for publication.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
