Reviewer’s report

Title: Knowledge, Attitudes and Practices (KAP) Relating to Avian Influenza in Urban and Rural Areas of China

Version: 1 Date: 4 September 2009

Reviewer: WIJITR FUNGLADDA

Reviewer’s report:

There are minor essential revisions:

1. The Results on Page 8, the last paragraph, the correct sentence should be:
   The most common source of information about human AI was television, with 94% of rural residents and 92% of urban residents (p=0.041) (as presented in Table 1).

2. For better understanding of the denominators in Table 1., the authors should add
   the denominators (n) of the first column and the second column as follows:
   (on the line of) (the first column) (the second column)

   Information source n = 1,652 n = 2,263
   Requested more information on AI n = 1,826 n = 2,572
   Type of information requested on AI n = 1,135 n = 1,968
   Requested more information on AI through n = 1,135 n = 1,968

3. In Table 2. The figure of the second column on the line of Human infection with AI virus is associated with hygiene of wet poultry market: 81(94). The correct figure should be 81(4).
