Reviewer's report

Title: Galactomannan testing of bronchoalveolar lavage fluid is useful for diagnosis of invasive pulmonary aspergillosis in hematology patients

Version: 3 Date: 2 December 2009

Reviewer: Prasanna Khot

Reviewer's report:

Minor Essential Revision:

Please include the supplementary Table 2 in the main body of the manuscript.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

Declaration of competing interests:
I am co-inventor on two patent applications related to PCR-based diagnosis of invasive fungal infections (including diagnosis of IPA).
