Reviewer's report

Title: Role of Culex and Anopheles Mosquito Species as Potential Vectors of Rift Valley Fever Virus in Sudan Outbreak, 2007

Version: 2 Date: 22 January 2010

Reviewer: Maritza Pupo

Reviewer's report:
I have reviewed the current version of the manuscript and I consider the authors have made the appropriated corrections and they are improved it notably. So, in my opinion the authors have answered the points sufficiently well to allow their manuscript to be published.
