Reviewer’s report

Title: Clients of sex workers in Switzerland: it makes sense to counsel and propose rapid test for HIV on the street.

Version: 1 Date: 29 October 2009

Reviewer: Secondo Guaschino

Reviewer’s report:

This is a very interesting paper that focuses on the need to screen for HIV, with rapid test, all the clients of street-based sex workers. The authors need for the future to implementate these data, further data are needed to know the exact magnitude of the problem.

For this article we need more comments and details about table 3, more explanations about use of condom with sex worker. After this, the paper should be ready to be published.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
