Reviewer's report

Title: Pulmonary Melioidosis in Cambodia: a Prospective Study

Version: 2 Date: 17 March 2011

Reviewer: Brenda Ang

Reviewer's report:

Additional comment- authors have not explained why they excluded pt with HIV, DM, cancer or steroid therapy. By doing so, could they have missed out some cases of melioidosis in such pt with LRTI.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
