Reviewer's report

Title: Pulmonary Melioidosis in Cambodia: a Prospective Study

Version: 2 Date: 6 March 2011

Reviewer: Bart Currie

Reviewer's report:

The authors have done an excellent job addressing the suggestions for Revision. I think the revised manuscript is clear and very strong in making the important points about melioidosis in Cambodia found in this study. I have no further suggestions for Revision and am happy with this revision.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
