Reviewer's report

Title: Seroprevalence of transfusion-transmissible infections and evaluation of the pre-donation screening performance at the Provincial Hospital of Tete, Mozambique

Version: 2 Date: 4 April 2011

Reviewer: Jesus Ruiz-Aragón

Reviewer's report:

I attached the most important questions:

Is the question posed by the authors well defined? Yes
Are the methods appropriate and well described? Yes
Are the data sound? Yes
Does the manuscript adhere to the relevant standards for reporting and data deposition? Yes
Are the discussion and conclusions well balanced and adequately supported by the data? Yes
Are limitations of the work clearly stated? Yes
Do the authors clearly acknowledge any work upon which they are building, both published and unpublished? Yes
Do the title and abstract accurately convey what has been found? Yes
Is the writing acceptable? Yes

Accordingly, I consider that this paper follows these criteria or proposed recommendations and it’s in the correct order,

Therefore, I strongly feel that this paper should be little modified in order to be published.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
