Reviewer's report

Title: Tolerability of inhaled N-chlorotaurine in a pig streptococcal bronchopneumonia model

Version: 1 Date: 10 June 2011

Reviewer: Emer Reeves

Reviewer's report:

The authors of the manuscript entitled “Tolerability of inhaled N-chlorotaurine in a pig streptococcal bronchopneumonia model” by Schwienbacher et al., have adequately addressed the concerns raised and successfully performed the requested revisions.

Results confirm that inhalation of 1% NCT is well tolerated in the infected bronchopulmonary system.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
