Reviewer's report

Title: Characteristics of pncA Mutations in Multidrug-resistant Tuberculosis in Taiwan

Version: 2 Date: 1 August 2011

Reviewer: Christophe SOLA

Reviewer's report:

discretionary revisions

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

The paper can be accepted now under this form even though epidemiological considerations on MDRTB transmission would have required rpoB katG and inhA mutations to have been characterized.

I have no competing interest
