Reviewer’s report

Title: A comparative examination of tuberculosis immigration medical screening programs from selected countries with high immigration and low tuberculosis incidence rates

Version: 3 Date: 2 June 2010

Reviewer: Joshua Davis

Reviewer’s report:

The reviewer thanks the authors for their thorough responses and alterations.

The article is now acceptable to publish in its current form

One minor essential revision:
In methods, when the authors mention Stata software – need to use a capital S, state the version and the company e.g.:

Statistical analyses were carried out using Intercooled Stata version 9 (Statacorp, College Station, Texas, USA)

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
