Reviewer's report

Title: Prevalence of systemic immunoreactivity to Aggregatibacter actinomycetemcomitans leukotoxin in relation to the incidence of myocardial infarction

Version: 3 Date: 29 December 2010

Reviewer: keith mintz

Reviewer's report:

The lack of microbiological data is still problematic. However, statements were added to the manuscript to attempt to mollify this point.

The authors have adequately addressed the issues raised by the reviewers.

Pleas check the manuscript for grammatical errors.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
