Reviewer's report

Title: Toll-like receptor 9 polymorphisms are associated with severity variables in a cohort of meningococcal meningitis survivors

Version: 6 Date: 16 March 2012

Reviewer: Marieke Emonts

Reviewer's report:

The authors have satisfactorily answered my questions. I have no further comments

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I have worked with some of the authors on this paper. This was however in no way related to the work presented here, nor does it influence my review on this paper.
