Reviewer’s report

Title: Factors associated with non-adherence to Artemisinin-based Combination Therapy (ACT) to malaria in a rural population from holoendemic region of western Kenya

Version: 2 Date: 19 May 2012

Reviewer: Francisco Gude

Reviewer’s report:

The authors have adequately addressed the concerns expressed in the previous review

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.

Declaration of competing interests:

I declare that I have no competing interests
