Reviewer's report

Title: Field comparison of OraQuick ADVANCE Rapid HIV-1/2 Antibody test and two blood-based rapid HIV antibody tests in Zambia

Version: 1 Date: 9 June 2012

Reviewer: Robert Colebunders

Reviewer's report:

Interesting paper
Well written
No major comments
Minor comment:
The authors should mention that The OraQuick test has the disadvantage that acute HIV infections may be missed because it will only detect antibody
This is a disadvantage in populations with a high incidence of HIV infections

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
