Reviewer's report

Title: Prognostic value of semi-quantitative bacteruria counts in the diagnosis of group B streptococcus urinary tract infection: a 4-year retrospective study in adult patients

Version: 1 Date: 26 August 2012

Reviewer: JEONG LEE

Reviewer's report:

This is well organized and written articles. I don't think any major revisions.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
