Reviewer's report

Title: Evaluation of Microscopic Observation Drug Susceptibility assay for diagnosis of multidrug-resistant tuberculosis in Viet Nam

Version: 3 Date: 20 December 2011

Reviewer: Ruth McNerney

Reviewer's report:

The conclusion of the abstract should be modified to take into account the low sensitivity as discussed in the results section

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.

Declaration of competing interests:
