Reviewer's report

Title: Marked variation in MSP-119 antibody responses to malaria in western Kenyan highlands

Version: 2 Date: 16 January 2012

Reviewer: George Ayodo

Reviewer's report:

The authors have adequately addressed all my concerns in the manuscripts.
a) Sample size in each age categories are well outlined b) They controlled for age during the analyses .c) Use of MSP1 as a marker is now well linked to the research question. This is a very good effort on the authors.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
