Reviewer’s report

Title: Type-specific oncogenic human papillomavirus infection in high grade cervical disease in New Zealand

Version: 1 Date: 9 December 2012

Reviewer: partha basu

Reviewer’s report:

The article is of major public health interest for the country. The research questions have been clearly defined and the methodology is acceptable to address the issues. The discussion is well written.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.

Declaration of competing interests:
