Reviewer's report

Title: Male Circumcision and Prevalence of Genital Human Papillomavirus Infection in Men: A Multinational Study

Version: 1 Date: 15 November 2012

Reviewer: Julia Gage

Reviewer's report:

Discretionary revisions:
Were concurrent STIs detected at the exam and if so, was infection status associated with HPV infection?

Minor revisions:
Were there any differences in type-specific HPV findings by study location?

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.

Declaration of competing interests:
