Reviewer's report

Title: A unique strain of community-acquired Clostridium difficile in severe complicated infection and death of a young adult.

Version: 6 Date: 22 May 2013

Reviewer: Scott Curry

Reviewer's report:

Heslop et al. have adequately addressed all issues raised in my first review. I would consider deleting reference to "hypervirulent" in the Figure for strain ATCC 43255.

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
