Reviewer’s report

**Title:** Seroepidemiology of human enterovirus71 and coxsackievirusA16 among children in Guangdong province, China

**Version:** 2  **Date:** 8 May 2013

**Reviewer:** Pengiran Hishamuddin

**Reviewer’s report:**

Major compulsory revision

1. The authors should elaborate on the sampling methodology in this study.

Minor essential revision

1. The dominant virus that caused the outbreak in 2008 should be mentioned if known as this will have an impact on the results for 2008 and 2009.

2. The results for the overall seroprevalence of EV71 and CA16 should be presented as a table.

**Level of interest:** An article whose findings are important to those with closely related research interests

**Quality of written English:** Needs some language corrections before being published

**Statistical review:** Yes, and I have assessed the statistics in my report.

**Declaration of competing interests:**

I declare that I have no competing interests
