Reviewer's report

Title: Vitamin B6 Reduces Hippocampal Apoptosis in Experimental Pneumococcal Meningitis

Version: 1 Date: 20 February 2013

Reviewer: Jose Irazuzta

Reviewer's report:

No revuisions needed.
Mechanisitic study in a n important pathway of brain injury with ana gent that is widely available Article is well written, somehow lengthy, raising several more hypothesis in teh discusiion, but conclusionn supported by their finding.

This is a first step before any attempt for translational studies could be made. No major revisions needed.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
