Reviewer’s report

Title: Identification and characterization of vaginal lactobacilli from South African women

Version: 2 Date: 13 November 2012

Reviewer: Juan E Suarez

Reviewer’s report:

Most of my previous suggestions have been competently answered, although no followed. However, I shall now recommend publication based on the positive will of two of the other referees plus some improvements/modifications included in the manuscript.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
