Reviewer's report

Title: Natural Prevalence of Antibodies to Spike Proteins of Four Non-SARS Human Coronaviruses Among a General Population in Beijing

Version: 6 Date: 19 July 2013

Reviewer: Cavan Reilly

Reviewer's report:

The authors have modified the paper to a sufficient extent to meet my previous concerns.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, and I have assessed the statistics in my report.

Declaration of competing interests:

I have no competing interests.
