Reviewer's report

Title: Functional outcomes of general medical patients with severe sepsis

Version: 3  Date: 4 November 2013

Reviewer: Catherine Lee

Reviewer's report:

This paper is much improved and I am in favor of publication

Discretionary revision- on page 10, the sentence "Among patients never requiring ICU care, mortality was 4.2% (n=2) and 37.5% (n=6) among those patients requiring ICU care" is redundant.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
