Reviewer's report

Title: Etiology and Outcome of Severe Community Acquired Pneumonia in Immunocompetent Adults.

Version: 2 Date: 3 December 2012

Reviewer: Bertrand Renaud

Reviewer's report:

Dear authors,

You adequately addressed my comments and suggestions. However, many information and data were not available due the retrospective nature of the study and to incomplete data collection. These important limitations to the study findings should be fully and clearly acknowledged in the limitation paragraph of the discussion section.

Sincerely yours,

Pr B Renaud
