Reviewer's report

Title: Outcome of acute East African trypanosomiasis in a Polish traveller treated with pentamidine

Version: 3 Date: 28 November 2013

Reviewer: Florian Steiner

Reviewer's report:

The authors have thoroughly answered the reviewer's comments. The manuscript has significantly been shortened, though it is still very lengthy for a case report, but acceptable. The overall structure is clear now. Necessary changes have been made. The quality of the manuscript has significantly improved.

I recommend to accept this manuscript for publication.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
