Reviewer's report

Title: Hospital-based HIV/HSV-2 seroprevalence among male patients with anal diseases in Korea

Version: 1 Date: 5 June 2013

Reviewer: Valdilea Veloso

Reviewer's report:

The study design is not scientifically sound, the data analysis is poor, as well as the conclusions. Therefore, this study should not be accepted for publication.

Level of interest: An article of insufficient interest to warrant publication in a scientific/medical journal

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I have no competing interests to report.
