Reviewer's report

Title: Prevalence and Correlates of Cytopenias in HIV-Infected Adults Initiating Highly Active Antiretroviral Therapy in Uganda

Version: 2 Date: 26 May 2014

Reviewer: Oche Agbaji

Reviewer's report:

Minor Essential Revision
1. The authors should define the criteria used to define AIDS in their patients; was it immunological or clinical AIDS; as some patients had CD4 T-cell counts greater than 200. The authors should clarify this in the methods section.

Level of interest: An article of outstanding merit and interest in its field

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
