Reviewer's report

Title: A Randomized Controlled Trial of Standard versus Intensified Tuberculosis Diagnostics on Treatment Decisions by Physicians in Northern Tanzania

Version: 2 Date: 22 May 2013

Reviewer: Murat Gunaydin

Reviewer's report:

Article does not contain any new information. Also the number of cases is low. Article is not understood. Although the article incomprehensible. page 7 and 10 has some percentage error. Reason for this error is not understandable.

Level of interest: An article of insufficient interest to warrant publication in a scientific/medical journal

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, and I have assessed the statistics in my report.
