Reviewer’s report

Title: A Quantitative PCR (TaqMan) Assay for Pathogenic Leptospira spp.

Authors:

Lee D Smythe (lee_smythe@health.qld.gov.au)
Ina L Smith (ina_smith@health.qld.gov.au)
Greg A Smith (greg_smith@health.qld.gov.au)
Michael F Dohnt (michael_dohnt@health.qld.gov.au)
Meegan L Symonds (meegan_symonds@health.qld.gov.au)
Leonie J Barnett (leonie_barnett@health.qld.gov.au)
David B McKay (dmckay@usc.edu.au)

Version: 4 Date: 25 Jun 2002

Reviewer: Dr Paul Levett

Level of interest: A paper whose findings are important to those with closely related research interests

Advice on publication: Accept without revision

I have read both the revised manuscript and the replies to my original comments. The authors have addressed all the points in a satisfactory way and I recommend that the paper be accepted for publication.

Competing interests:
