Reviewer’s report

Title: Lack of microbiological concordance between bone and non-bone specimens in chronic osteomyelitis: an observational study.

Authors:
  Andres F Zuluaga (azuluaga@medicina.udea.edu.co)
  Wilson Galvis (wdgalvis@hotmail.com)
  Fabian Jaimes (fjaimes@catios.udea.edu.co)
  Omar Vesga (ovesgam@medicina.udea.edu.co)

Version: 2 Date: 10 May 2002

Reviewer: Dr pablo lew

Level of interest: A paper of limited interest

Advice on publication: Other (see below)

In my opinion the authors respond well to our criticisms, the manuscript is therefore acceptable provided the authors indicate the limitations of the study as stated in our review and their rebuttal letter.
