Reviewer's report

**Title:** Chlamydia trachomatis Infection in Early Neonatal Period

**Authors:**

Dr Kei Numazaki (numazaki@sapmed.ac.jp)
Hideomi Asanuma (hide.asanuma@nifty.ne.jp)
Yuichi Niida (yuniida@nifty.com)

**Version:** 1  **Date:** 17 Feb 2003

**Reviewer:** Tibor Nyári

**Level of interest:** A paper whose findings are important to those with closely related research interests

**Advice on publication:** Accept after discretionary revisions

In general, this manuscript acceptable for publication but the text should be shortened and rewritten as short report. A number of the author's previous papers dealt with C. trachomatis. However, they missed to mention the major role of C. trachomatis in perinatal mortality which was published in papers (eg: Nyari et al in J Perinat Med 2001;29(1):55-9)
