Reviewer's report

Title: Common variable immunodeficiency syndrome with right aortic arch; a case report

Version: 3 Date: 14 January 2004

Reviewer: Rafal Pawliczak

Reviewer's report:

General
Paper still needs some language corrections.

Discretionary Revisions (which the author can choose to ignore)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

What next?: Accept after minor essential revisions

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No
