Reviewer’s report

Title: Meningitis due to Fusobacterium necrophorum in an Adult

Version: 4 Date: 12 July 2004

Reviewer: Renaud Verdon

Reviewer’s report:

General
This revised form of the case-report "Meningitis due to Fusobacterium necrophorum in an adult" by Garimella SN et al. is suitable to publication and I have no more comment.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article of limited interest

Quality of written English: Acceptable

Statistical review: No
