Reviewer's report

Title: Older age does not influence CD4 cell recovery in HIV-1 infected patients receiving Highly Active Anti Retroviral Therapy.

Version: 3 Date: 5 October 2004

Reviewer: G. Paolo Rizzardi

Reviewer's report:

General
The Authors efficiently revised the manuscript, addressing major revisions requested in previous reviews. This reviewer believes that the data presented here are of importance in its field.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No
