Reviewer's report

Title: Catheter-associated bacteremia by Mycobacterium senegalense in Korea

Version: 1 Date: 21 September 2005

Reviewer: Robert Sawyer

Reviewer's report:

General
A nice piece of microbiology.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)
Was the CVC cuffed or uncuffed?

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)
On page 9 clarithromycin is misspelled.

What next?: Accept after minor essential revisions

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No

Declaration of competing interests:
'I declare that I have no competing interests'
