Title: Comparison of Treatment with Two Different Doses of Interferon-alpha in Naive Chronic Hepatitis C Patients: A 10-year Follow-up of 200 Patients in Taiwan

Version: 1 Date: 19 January 2005

Reviewer: ANGELOS HATZAKIS

Reviewer's report:

This manuscript, in its new version, is substantially improved. The section on the long-term efficacy is improved. A strong point of this study is the long-term follow up data on the sustainability of interferon response.
