Reviewer's report

Title: Tuberculous dilated cardiomyopathy: an under-recognized entity?

Version: 1 Date: 14 April 2005

Reviewer: solomon Danabuchi

Reviewer's report:

General

-------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)
1. The case summary. The cardiovascular clinical reporting was not sequential i.e. pulse, BP, JVP, precordium etc.
2. Reference. Most of them look old, are no recent articles on same subject? e.g. Danbauchi S S, Odigie V I, Rafindadi A h, Kalayi G D, Mohammed I Tberculous myocarditis:A case report. Nigerian Postgraduate Medical Journal 2001;8:199-202

-------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)
